

**List of Compatible Inverters
with LG Energy Solution Home Battery**

RESU

RESU FLEX

Compatible storage Inverters with RESU FLEX

All RESU installations require a compatible inverter. Using a non-approved inverter will void the warranty provided by LG Energy Solution. See below important instructions when installing and using RESU FLEX.

- 1) Battery/Hybrid inverters should operate in **On-Grid only**. (Not in Off-Grid)
- 2) For On-Grid applications where Back-up mode may be sometimes utilized, the backed up circuits and inverters AC draw must not exceed the battery current limit specifications.

Following list of Inverters are currently compatible with LG Energy Solution home battery, RESU FLEX Series.

Parallel expansion up to 2 is expected from 2023.

[EU]

※ More compatible inverters will be added.
