

ECO HYBRID

SNA 3-6k

With thousands of hybrid inverters & AC units installed around the world, Luxpower has stepped even further to bring power to every home, with or without grid power.

ECO Hybrid SNA 3-6k is now available for homes without grid. Inquire your local distributor to reorganize your power at home, no more blackouts.

ECO HYBRID

How it works

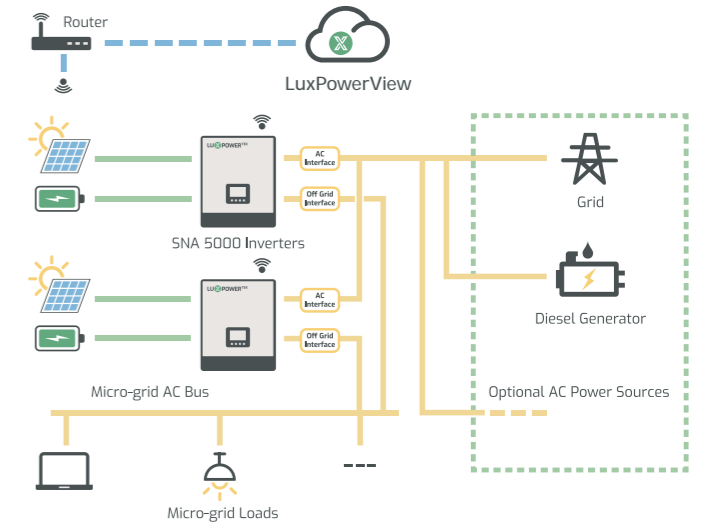

Your Reliable Energy Solution Partner

/ System Connection

Off-grid system is a good solution for the area where the grid power is unstable or in scarcity.

- Advantage of solar power:
- Easy to install
 - Efficient
 - Cost-effective
 - Environment-friendly

Can partially or entirely replace diesel generator. Flexible from 3 to 50kW.

/ Working Mode

SNA 3-6kW series off-grid inverters can support the system to work as back-up power or a replacement for diesel generator. Since the inverter support paralleling function, the capacity of the system can range from 3kW to 50kW.

The inverter supports several working modes, including: Pure off-grid working mode: working as traditional off-grid inverters, can prioritize between using AC power or solar power. Hybrid working mode: working as a hybrid, supporting solar and utility jointly taking the load, can choose between self-consumption mode or charge priority mode.

SNA 3-6k Single phase

Reclaim Your Power

- Intelligent off-grid & hybrid modes
- Off-grid seamless switching
- Wide PV input voltage range
- Great battery compatibility
- Single phase/Unbalanced 3-Phase
- Support up to 16pcs in parallel
 - Host inverter automatically generated to manage the entire system
- Separate generator port available
